

Welcome

Organisation is a vital factor in succeeding on this course. It allows you to quickly find previously completed work that could aid you solving a problem you are currently finding challenging.

Being organised and prepared for lessons means every moment of class time is focussed on your progress.

Equipment List

A4 lever arch file

Two hole punched paper – please not spiral bound

20 dividers

A full pencil case: pens, pencils, ruler (there is no need for protractors or compass anymore!)

The course required calculator: casio fx-991CW

- There is NO NEED for a graphical calculator but the one mentioned is essential. The deadline to get one is 16/09/24. They are cheaper the earlier you get one!

Trips and visits

Maths Inspiration

Florence Nightingale

We have speakers from universities/employers in to talk to students

We take part in national and international maths competitions

Other information

The quicker you jump onboard with the course systems, the more you will love maths and the quicker you will see improvement. The team run numerous sessions in the week where you can ask for help – or more maths to do! We have purposeful and appropriate enrichment to ensure your course is as exciting and interesting as it can be, and we have a focus on showcasing the vast areas of fascinating employment the subject can lead in to.

We use certain digital platforms to enhance our delivery – if tech isn't your thing you need to come and speak to us asap when teaching starts so we can help you.
